

BE MORE PRODUCTIVE WHEREVER YOUR WORK TAKES YOU

Ambu® aScope™ 4 RhinoLaryngo

Ambu

Ambu® aScope™ 4 RhinoLaryngo

Ambu® aScope™ 4 RhinoLaryngo is a single-use flexible rhinolaryngoscope solution that simplifies your workflow. It offers high-quality imaging with video and audio capabilities, connectivity options for documentation, and plug-and-play setup and usage delivering:

1. **Single-use efficiency which simplifies your workflow**
2. **A high-quality experience every time**
3. **Easy and straightforward documentation**

The solution includes a portfolio of two single-use flexible rhinolaryngoscopes and the high-quality, portable full-HD Ambu® aView™ 2 Advance endoscopy system, which enables synchronised image, video and audio recording.

Low capital investment no reprocessing or repairs

Along with a low capital investment compared to reusables, the single-use aScope 4 RhinoLaryngo eliminates the hidden costs associated with reusables such as cleaning supplies, maintenance, repairs, and long-term contracts. Furthermore, unlike with reusable endoscopes, the image quality and bending performance never deteriorate because you get a brand-new endoscope for every procedure.

Offers a high-quality experience every time

1

SINGLE-USE EFFICIENCY THAT SIMPLIFIES YOUR WORKFLOW

- ✓ Always available: Take the lightweight, portable solution with you wherever you're needed
- ✓ Plug and play: Simply remove the endoscope from its sterile packaging and connect to the display unit
- ✓ Involve your patient or peers by sharing the screen during the procedure or with recorded images and videos later
- ✓ Enjoy a lightweight endoscope and improve your working posture
- ✓ No cleaning, maintenance or repairs needed

2

EXCELLENT IMAGING WITH INTEGRATED VIDEO AND AUDIO RECORDING

- ✓ Easily identify anatomical structures with high endoscope image quality and the full-HD endoscopy system
- ✓ Dictate notes as you perform the procedure with synchronised audio and video
- ✓ Review recordings of fast movements more carefully with slow-motion video playback
- ✓ Isolate and save key frames for reporting, training and to get second opinions

3

EASY AND STRAIGHTFORWARD DOCUMENTATION

- ✓ Record images, video and audio during the procedure
- ✓ Import your daily worklist and select the relevant patient directly on the touchscreen
- ✓ Use wifi or LAN connectivity options to connect to the hospital network and access patient records
- ✓ Transfer patient data to the PACS in DICOM format to enable future access

Ambu FOREVER FORWARD

A HISTORY OF BREAKTHROUGH IDEAS

Ambu has been bringing the solutions of the future to life since 1937. Today, millions of patients and healthcare professionals worldwide depend on the efficiency, safety and performance of our single-use endoscopy, anaesthesia, and patient monitoring & diagnostics solutions.

The manifestations of our efforts have ranged from early innovations like the Ambu® Bag™ resuscitator and the Ambu® BlueSensor™ electrodes to our newest landmark solutions like Ambu® aScope™ - the world's first single-use flexible endoscope. Moreover, we continuously look to the future with a commitment to deliver innovative quality products that have a positive impact on your work.

Headquartered near Copenhagen in Denmark, Ambu employs approximately 4,500+ people in Europe, North America and the Asia-Pacific region.
